

Computers, Privacy & Data Protection 2017- Save the date - 25-27 January 2017 - The Age of Intelligent Machines

Computers, Privacy & Data Protection 2017- Save the date - 25-27 January 2017 -The Age of Intelligent Machines
CPDP offers the cutting edge in legal, regulatory, academic and technological development in privacy and data protection. Within an atmosphere of independence and mutual respect, **CPDP** gathers academics, lawyers, practitioners, policy-makers, computer scientists and civil society from all over the world to exchange ideas and discuss the latest emerging issues and trends. This unique multidisciplinary formula has served to make **CPDP** one of the leading data protection and privacy conferences in Europe and around the world.

CPDP2017 adopts “Artificial Intelligence” as its overarching theme to pave the way for a timely and thorough discussion over a broad range of ethical, legal and policy issues related to new technologies. **CPDP2017** will stage more than 60 panels addressing current debates in the area of information technology, privacy and data protection. The preliminary programme for **CPDP2017** has been released and the line-up contains excellent panels. Session topics range from the implementation of the GDPR, ePrivacy Directive review and online behavioral advertising, the implications of Brexit for data protection, de-identification, EU-US Privacy Shield to Big Data and insurance, algorithmic decision-making, cybersecurity, IoT, the ethics of AI and much more.

CPDP is also an extraordinary networking opportunity to mix and mingle with the privacy and data protection community.
